Who We Are & Overview

ASTROMINING AND INDUSTRIAL

ABOUT US

ASTRO is a rising, dynamic, and forward-thinking Egyptian mining company

Who We Are & Overview

ASTROMINING AND INDUSTRIAL

FIELD OF WORK

Exploration, treatment, and upgrading of high-quality mining ores.

CORE APPROACH

We focus on providing superior products and services in the extraction and processing of essential minerals.

Direct field inspection of our high-whiteness limestone raw lumps, extracted straight from Astro's quarry reserves

Mission, Vision & Core Values

MISSION

To harness Egypt's rich mineral resources while adhering to the highest standards of environmental responsibility and sustainability.

VISION

To integrate resources and establish a reliable Egyptian hub providing high-specification ores to local and international markets.

CORE VALUES

Quality (stringent standards), Integrity (transparency/ethics), Sustainability (responsible practices), Innovation (technological advancements), and Collaboration (strong partnerships).

COMMITMENT TO QUALITY & PURITY

Delivering high-spec raw minerals sourced directly from Egyptian quarries, maintaining rigorous processing and strict laboratory control to ensure consistent excellence across all industrial applications.

EMPOWERING GLOBAL SUPPLY CHAINS

Transforming natural quarry reserves into high-value industrial solutions, ensuring stable supply, precise particle specifications, and dependable long-term partnerships for local and international markets.

Our Company Premium Service

ASTROMINING AND INDUSTRIAL

EXPLORATION

Comprehensive geological surveys and assessments

TREATMENT

State-of-the-art techniques to refine minerals.

UPGRADING

Advanced methods to enhance raw material value for industrial use.

SUPPLY

High-quality raw materials sourced from our mines and quarries, powered by highly efficient production lines

ASTRO VALUE Added

OTIENO DIGI-STAR

FROM MINERAL RESOURCES TO INDUSTRIAL VALUE

EXPLORATION → EFFICIENT EXTRACTION → ADVANCED PROCESSING → QUALITY CONTROL → CUSTOMER-SPECIFIC SPECIFICATIONS → RELIABLE SUPPLY → HIGHER VALUE PER TON

Astro Mining & Industrial transforms mineral resources into specification-driven industrial solutions through an integrated value chain combining extraction, advanced processing, quality control, and reliable supply.

Company Premium Products

Our extensive field experience and integrated supply chain allow us to offer more than just raw ores; we deliver precision-engineered mineral solutions. From high-purity silica sand to ultra-white calcium carbonate, our products are tailored to meet exact client specifications across diverse industries.

Experience

100%

In-House Quality Control

Rigorous laboratory-backed testing at strategic stages to ensure exact specifications.

+20

Countries Served

A well-established export network spanning Africa, the GCC region, and Asia.

+10

Production Lines

Fully powered by advanced technology to ensure purity and continuous processing.

On-Time Delivery Focus

Ensuring a dependable supply of raw materials tailored to meet your production deadlines without interruption.

Company Premium Products

ASTROMINING AND INDUSTRIAL

Silica Sand

Astro Mining supplies high-purity Egyptian white silica sand (SiO_2 99.5%-99.8%, Fe_2O_3 0.015%-0.010%) engineered for premium glass, crystal, and ceramics industries.
Key Features:
High Purity: Ultra-low iron prevents color distortion in clear/float glass.
Flexible Specs: Custom grain sizes.
Applications: Ideal for tableware, ceramics, float glass, glazes, and chemical formulations.
Reliable Logistics: Direct supply chain from mine to factory.

Monthly Capacity
30,000

Limestone

Astro offers premium (Limestone) sourced from high-quality Egyptian mines. Processed with advanced technology and strict lab control, it ensures supreme purity.
Specs:$CaCO_3$ >99%, Whiteness >97%.
Forms:Bulk, Crushed, (0.50 - 1.40 mm
1.00 - 2.00 mm
2.00 - 3.00 mm
0.50 - 2.00 cm
2.00 - 4.00 cm
4.00 - 7.00 cm
7.00 - 15 cm).
Capacity:30,000 tons/month.
Applications: Ideal for Paints, Plastics, Glass, Rubber, Paper, Cement, Agriculture, and Oil & Gas industries.
A reliable choice for local and global markets.

Monthly Capacity
30,000

Type
Lumps

Company Premium Products

ASTROMINING AND INDUSTRIAL

Calcium Carbonate

Astro offers premium Calcium Carbonate . Processed with advanced technology and strict lab control, it ensures supreme purity.
Specs:CaCO3 >99%, Whiteness >97%.
Forms:Powder (CaCO3 5 micron to 100 micron).
Capacity:15,000 tons/month.
Applications: Ideal for Paints, Plastics, Rubber, Paper,Agriculture, and Oil & Gas industries.
A reliable choice for local and global markets.

Monthly Capacity
15,000

Type
Powder

Gypsum

Astro provides premium Gypsum sourced directly from high-quality Egyptian quarries Purity 95-97 % Total CaSO4 = 94 -95. it meets elite global standards.
Specs:SO3: 54.00-56.00% | CaO: 28.00-33.00% | K2O: 0.09%.
Forms: Available in Bulk, Crushed, and Powder forms.
Capacity: Up to 30,000 tons per month.
Applications: Essential for Contracting, Drilling, Cement, and Concrete industries.
Guaranteed precision and delivery for global markets.

Monthly Capacity
30,000

Type
Lumps
Powder

Talc

Talc is a high-purity, ultra-soft magnesium silicate mineral renowned for its exceptional whiteness, smoothness, and chemical inertness.
Specs: SiO2 approx. 60-62% | MgO approx. 30-33% | High whiteness (90-92%).
Forms: Available in ultra-fine Powder (micronized) and Lumps.
Capacity: Tailored high-volume supply based on industrial demand.
Applications: Essential for Plastics (automotive), Paints & Coatings, Ceramics, Paper, Cosmetics, and Rubber
An ideal functional filler ensuring premium quality

Monthly Capacity
10,000

Type
Lumps
Powder

Company Premium Products

ASTROMINING AND INDUSTRIAL

Feldspar

Astro supplies high-purity Feldspar processed with new technology and strict lab quality control to ensure exceptional grade standards.
Feldspar Specs: K2O 6-8% Na2O 3-5% Fe2O3 <0.5%.
Feldspar Specs: Grades up to 11% K2O (Fe2O3 from <0.3% up to 1%).
Feldspar Specs: Grades >11% K2O (Fe2O3 from <0.3% up to 1%).
Forms: lamps, Crushed, and Powder.
Capacity:
5,000 tons/month.
Applications:Ideal for Glass, Ceramics, Refractories, and Artificial Marble.

Monthly Capacity
5,000

Type
Lumps
Powder

Dolomite

Astro supplies premium Dolomite is a high-purity, premium-grade calcium magnesium carbonate mineral renowned for its excellent brightness, structural consistency, and chemical stability.
Specs: MgO 20%
CaCO3 32%
Al2O3 0.04%
Fe2O3 0.02 -0.05%.
Forms: Available in bulk raw material, crushed, and ultra-fine powder to suit diverse manufacturing requirements.
Capacity: High-volume supply capability of up to 10,000 tons per month.
Applications: Essential for Glass and Ceramics, Agriculture, Water Treatment, and Construction materials.
Value Proposition: An ideal mineral solution ensuring consistent performance and premium quality for global industrial applications.

Monthly Capacity
10,000

Type
Lumps
Powder

Iron Oxide

Astro supplies premium Iron Oxide sourced from high-grade natural reserves. Refined with advanced processing, it ensures exceptional color consistency and purity.
Specs: Fe2O3 50-80% | Low impurities | Excellent UV stability and high tinting strength.
Forms: Available in fine Powder and Granular forms.
Capacity: high-volume supply based on industrial demand.
Applications: Paints, Coatings, Plastics, Ceramics, Construction (Concrete pigments), and Cosmetics.
A reliable, rich pigment solution

Monthly Capacity
10,000

Type
Lumps
Powder

Company Premium Products

ASTROMINING AND INDUSTRIAL

Kaolin

Astro supplies premium Kaolin sourced from elite Egyptian mines. Processed with German technology and strict lab controls, it guarantees supreme industrial value.

Specs :Grade A (Al_2O_3 >32 -38%, Fe_2O_3 : 0.2 -0.7%); Grades B (Al_2O_3 {28-32%}), C(Al_2O_3 {23-28%}), available.

Forms: lamps, Crushed, and Powder.

Capacity: Up to 15,000 tons per month.

Applications: Perfect for Refractories, Ceramics, Plastics, Paper, Paint, Rubber, and Inks.

A reliable, tailored supply for worldwide markets.

Monthly Capacity
15,000

Type
Lumps
Powder

ASTRO Minerals: Powering Global Industries

Our products serve diverse fields including: Glass, Ceramics, Refractories, Fertilizer, Cement, Paint, Plastic, Rubber, Paper, Oil & Gas, Contracting, Food, Chemical, and Pharmaceutical industries.

Our Extraction Power & Logistics Capabilities

Uncompromising Purity from Earth to Industry. We harness Egypt's finest natural reserves, processing them through state-of-the-art facilities to deliver the exact chemical composition your manufacturing lines demand

Powering Industrial Growth Through Reliable Mineral Solutions. As a trusted partner to heavy industries, Astro provides uninterrupted access to premium-grade raw materials engineered for peak manufacturing performance

Our Extraction Power & Logistics Capabilities

Bridging raw mineral abundance with industrial precision through scalable extraction methods, advanced facility processing, and dependable supply chain management

International Presence & Partners

MARKET REACH

Egypt, Gulf Countries, South Africa, India, Bangladesh, Libya, Turkey, Morocco, Tunisia, and Algeria.
